

REMARKS/ARGUMENTS

Applicant thanks Examiner for the detailed Office Action dated May 5, 2006. In response to the issues raised, the Applicant offers the following submissions and amendments. Also enclosed, is a Terminal Disclaimer linking the term and ownership of any patent granted on the present application to that of co-pending USSN 10/760,214.

Drawings

The specification and drawings have been amended such that all reference numerals appearing in the description are shown in the corresponding figure. Accordingly, we believe that the drawings now comply with 37 CFR 1.84(p)(5).

Non-Statutory Double Patenting

The enclosed Terminal Disclaimer links the term and ownership of any patent granted on the present application to that of co-pending USSN 10/760,214. The Applicant submits that this avoids any unjust timewise extension of patent rights or harassment from multiple assignees.

Conclusion

It is respectfully submitted that the Examiner's objection and rejection have been successfully traversed and the application is now in condition for allowance. Accordingly, favorable reconsideration is courteously solicited.

Very respectfully,
Applicants:
